### **Prevention of Radicalisation**

As part of our Safeguarding activity, CareSkills has a responsibility to follow the UK government's Prevention of Radicalisation agenda. Prevent is the counter-terrorist programme which aims to stop people being drawn into terrorist-related activity. It is about tackling the factors that can cause people to become drawn into violent extremism and empowering individuals and communities to stand up to violent extremists.

Prevent is not about singling out a particular group. It is about addressing the real threat to the security of this country and is delivered in partnership by a wide range of organisations including the police service. Working closely with other organisations, our aim is to support local communities and institutions to challenge and reject the message of extremism.

Prevent is one of the key elements of CONTEST, the Government's counter- terrorism strategy

CareSkills aims to raise awareness among all employees to prevent people from being drawn into terrorism and ensure that they are given appropriate advice and support. We have resources in place to help identify and provide support for people at risk of radicalisation, along with information to tackle the challenge of radicalisation on the internet.
